

## **aromx™ 33 Bio-Enzymatic Drain Maintainer**

Unique strain of bio-enzymatic bacteria that digests blockage in drains and grease traps

### **Features & Benefits**

- Biodegrades and liquefies potential blockages safely
- Fortified with Aromx™ odour counteractant
- Use in drains and grease traps manually or through an automatic feed system

### **Usage Instructions**

#### **Grease Traps**

1. Remove as much grease and waste as possible before use
2. Add 300 – 500 mL (10 – 17 oz.) daily manually or automatically
3. Add at night or during minimal water use

#### **Drains exposed to heavy contamination**

1. Add an initial dose of 900 mL (30 oz.) followed by 250 mL (8 oz.) of warm water
2. Repeat the next day
3. Begin daily maintenance additions of 300 go 500 mL (10 – 17 oz.) manually or automatically

#### **Drains exposed to light contamination**

1. Add an initial dose of 500 mL (17 oz.)
2. Continue to add 300 mL (10 oz.) 3-5 times weekly, manually or through an automatic feed system

### **Caution**

- Avoid contamination of food in application and storage
- Do not store in food processing areas
- Causes eye irritation
- Wash exposed areas thoroughly after handling
- Dispose of contents/container in accordance with local regulation
