

# SPRAY & GO OUTBREAK PREVENTION PROGRAM

Specifically designed to immediately respond to the risk of an outbreak or virus transmission. Our Latest ES15 Spray & Wipe Disinfectant Cleaner is ready to use allowing you to apply to most any surface providing you with the peace of mind of the correct dilution, every time.

*We recommend cleaning first, cleaning thoroughly and cleaning most every surface that is subject to cross contamination. Then apply ES15 to those high contact, high risk, transfer points and walk away. Food contact surfaces or areas where children's toys such a day care or preschool facilities must be rinsed with potable water.*

## ES15 SPRAY & WIPE DISINFECTANT CLEANER
