

# aromx™ 35 Bio-Enzymatic Odour Digester

Synergistic blend of specialized strains of bacteria that digests organic matter causing foul odours

## Features & Benefits

- Contains billions of enzymes producing bacteria for effective odour digesting and control
- Use in urinals, toilets, drains, traps and to digest odours and remove organic stains on carpets, upholstery and fabrics

## Usage Instructions

### Foul odours around toilets, urinals, etc.

1. Dilute 250 to 500 mL (8.5 to 17 oz.) per 4 L (135 oz.) of water depending on degree of soil
2. Use as you would a regular cleaner to clean contaminated areas
3. Spray full strength and thoroughly while surface is still wet
4. Spray daily until all entrapped odours are digested
5. Treatment is only needed weekly or monthly thereafter

### Foul odours around urinal drains and traps

1. Treat urinal when it will not be used for an extended period
2. Initially pour 500 mL (17 oz.) to 1 L (33.8 oz.) in trap
3. Add 120 mL (4 oz.) twice weekly for continued maintenance
4. Do not flush after treatment is added

### Odours in carpets, upholstery and fabrics and to remove organic stains

1. Dilute 300 mL (10oz.) per 4 L (135 oz.) of water
2. Test fibres for colour-fastness
3. If colour-fast, use solution to clean soiled area
4. After cleaning, spray with full strength Aromx™ 35
5. Rinse with water
6. Blot or pick up with wet vacuum

## Caution

- Causes eye irritation
- Wash exposed areas thoroughly after handling
