COMPLIANCE BUILDING SOLUTIONS

IMPROVE PATIENT OUTCOMES WITH INNOVATIVE HAND HYGIENE MANAGEMENT SOLUTIONS

The components of the PURELL SMARTLINK™ electronic compliance monitoring solution can be used individually or together to create a compliance program that can help to meet your hospital's Quality Improvement Program Goals.

Activity Monitoring System (AMS)

Enhance your culture of safety by capturing hand hygiene events and opportunities 24/7, giving you a more complete picture of your staff's hand hygiene performance.

Clinician-Based Support (CBS)

Supplement innovative technology with clinical expertise to help you get the most out of your data to help drive behavior change and build and sustain hand hygiene improvement.

Integrated Technology

Provides the flexibility of integrating PURELL SMARTLINK dispensers with your Real-Time Locating System (RTLS) infrastructure, or stand-alone hand hygiene monitoring systems, to enable person-specific hand hygiene monitoring.

Service Alerts

A predictive and preventative maintenance system that helps to ensure soap and sanitizer are available to you and your staff for critical hand hygiene moments.

Integrated Technology

Provides the flexibility of integrating PURELL SMARTLINK dispensers with your Real-Time Locating System (RTLS) infrastructure, or stand-alone hand hygiene monitoring systems, to enable person-specific hand hygiene monitoring.
