

## Ultra laundry powder with bleach

High performance laundry detergent that washes 83 loads (166 loads HE machines) and delivers extra white whites and extra bright colours

### Features & Benefits

- Colour safe bleach
- Performs well in any level of water hardness and temperature
- Specially formulated for white and colourfast fabrics

### Usage Instructions

- Check washing instruction on items to be laundered before starting
- Colourfast test

Dissolve 2 tbsp. (25 mL / 0.85 oz.) of detergent in 1 cup (250 mL / 8.5 oz.) of hot water. Soak a hidden area for 1/2 hour. If no changes noted, wash as usual.
- Sort laundry. Separate colours from whites and lightly soiled from heavily soiled items
- Select water temperature
- Swish Ultra Laundry Detergent provides excellent performance in any water temperature

**Hot Water**

White cotton  
Heavily soiled  
Colourfast fabrics  
Diapers

**Warm Water**

Permanent press  
Wash and wear  
Colourfast fabrics  
Synthetics

**Cold Water**

Sensitive dark  
Bright colours that bleed  
Lightly soiled fabrics  
Washable silk

- Rinse in cold water
- Measure the right amount of detergent with the scoop provided.

For best results fill scoop to line

Per load 1 full scoop (120 mL / 4 oz.)

Extra large or heavily soiled loads 1 1/2 scoops (180 mL / 6 oz.)

HE Machines 1/2 scoop (60 mL / 2 oz.)

For tough stains presoak in a solution of 1/2 scoop (60 mL / 2oz.) per 3.78 L (1 US Gal.) of water for 60 minutes. Do not soak wool or silk.

For Top Load Machines, add detergent to water before placing laundry in machine

**Caution**

- Dispose of contents/container in accordance with local regulation
