

# Process MicroLaundry

## Description:

PCS Process MicroLaundry is specially designed for washing microfibre cloths and floor mops. Use to wash manually or with household machines.

## Uses:

Designed for washing microfibre cloths and floor mops.

## Directions for use.

Top loading machines add two caps per load. High efficiency machines add one cap per load. For best results wash in hot water with an extra rinse cycle.

Manual washing of microfibre cloths and floor mops, add 60 mls / 1/2 cap to 4 litres / 1 gallon of hot water. Place cloths or mops in solution and allow soaking for at least two minutes. Wring out cloths or mops a few times. Rinse with warm clear water until all loosened soil is removed and rinse water is clear.

## Benefits:

- No Synthetic Chemicals
- No Surfactants
- Less than 0.05% VOCs
- All ingredients are listed on the label
