

FROM FILTHY TO FLAWLESS: UNRAVELING THE MAGIC OF 3-STEP MATTING!

The 3-step entrance matting system is a highly effective solution designed to enhance facility cleanliness and safety. Comprising three distinct types of mats placed in sequential order, this system efficiently reduces cleaning time and improves safety within the facility.

1 SCRAPER MAT

Starting with an outdoor scraper mat, typically made of coarse fibres or rubber bristles, effectively removes large debris, such as dirt, mud, and gravel, from the shoes of incoming individuals. By preventing these particles from entering the facility, the system minimizes the spread of dirt and contaminants throughout the interior spaces.

Scraper for larger debris and outdoor dirt

COMBINED WITH

2 SCRAPER/WIPER

The second step incorporates a water-absorbing mat or a recessed "well mat" inside the entrance. This mat, typically made of absorbent materials, effectively traps and retains moisture, finer dirt particles, and smaller debris, preventing slip hazards and reducing the amount of dirt tracked into the facility.

Scraper/Wiper traps finer particles and absorb excess moisture

COMBINED WITH

3 WIPER

The third step involves the installation of an indoor wiper mat, often made of dense, durable fibres. This mat removes any remaining dirt and moisture, providing a final line of defence against slip and fall accidents while improving indoor air quality.

Wiper is the final barrier to ensure a clean and dry entryway.

By implementing the 3-step entrance matting system, you can:

- ✓ Reduce cleaning time because the mats prevent dirt, moisture, and debris from spreading throughout the facility.
- ✓ Enhance safety by minimizing slip and fall hazards, as they remove moisture and dirt shoes at each step.
- ✓ Minimize external pollutants entering and spreading through the building.

FEATURED MATS

SCRAPER

EDGEWOOD GRITSTOP FINGERMAT™

- Rugged scraper mat for increased floor protection and safety
- Scraper fingers remove and trap dirt and debris

SKU #GFM223672

SCRAPER/WIPER

EDGEWOOD EVEREST™ MAT WITH EDGING

- Durable rubber backing for lasting performance
- Keeps soils and water off floors to inhibit floor damage and slip and fall accidents

SKU #EVR432006
