

SPRING IS THE PERFECT TIME FOR A DEEP CLEAN

In spring, allergy season reaches full swing so it is a perfect time to target accumulated dust and dander, clean, tidy and disinfect beyond your daily routines. **With so much to do, here are some areas to focus on:**

1 ORGANIZE, ASSESS & RESTOCK YOUR CUSTODIAL CUPBOARD

- Check expiry dates & safely dispose
- Evaluate stock levels & pre-order
- Consider chemical dispenser units for safe, efficient inventory management
- Don't forget PPE inventory
- Assess safety of set up (heavy objects on low shelves for minimal lifting and reaching, cool, dry ventilated areas for chemicals).

2 SERVICE EQUIPMENT & SCHEDULE TRAINING

- Book preventative maintenance assessment
- Check vents for blockages
- Update cleaning protocol checklists for seasonal changes
- Provide updated training for product and equipment use

3 DEEP CLEAN AND RESTORE THE FLOORS

- Remove corrosive winter debris
- Scrub and partial restore with no-slip neutral floor cleaners
- Clean or replace entrance matting (depending on type use carpet extractor or power washer)
- Treat, wash and thoroughly dry interior carpets
- Powerwash entrance stairs and pavement
- Sweep parking lots and sidewalks

4 LET THE LIGHT IN

- Remove the film on the interior + exterior of windows + glass doors
- Vacuum window screens and blinds
- Test, dust and replace lighting fixtures as necessary

5 PURIFY THE AIR

- Remove airborne allergens with purifiers (allergy season!)
- Clean vents and replace filters
- Dust top down including ledges, baseboards, light fixtures

6 DISINFECT BEYOND THE VISIBLE DIRT

- Clean and disinfect high-touch surfaces
- Validate cleaning with imaging and management software

Swish

FEATURED PRODUCTS

SWISH® SPARKLE

Residue-free formula eliminates spotting, film, and streaking on surfaces and dries crystal clear.

SKU #9220-T

946ml
