Education

Did you know?

64% of respondents are somewhat or extremely worried about hygiene when entering restrooms in education buildings.*

73% of respondents prefer a paper towel to dry their hands in public restrooms (versus 23% for air dryers).*

Surface contamination levels are on average **10 times higher** following air dryer use than paper towel use.**

91% of respondents agree to a certain extent that they are making a positive environmental impact when using paper towels and bath tissue made from recycled materials.*
