

FLOOR CARE

8 TIPS TO BUYING AN AUTO-SCRUBBER

1 ASSESS YOUR UNIQUE NEEDS

- **Floor Type** - some surfaces are more delicate than others.
- **Cleaning Frequency** - hourly, daily or weekly?
- **Facility Traffic** - heavy volume requires more cleaning.
- **Staff Turnover** - ease of training new members.
- **Noise Constraints** - working around sleeping, residents or patients.

2 BUY AS WIDE AS YOU CAN, WITH THE LARGEST TANKS

Clean more in less time by buying the widest possible scrubbing width that you can afford. Save time re-filling with the largest tank in your budget. Ensure it is still portable and maneuverable to clean your smaller areas and store away.

3 THINK AHEAD ABOUT STORAGE AND PORTABILITY

Will you need to carry equipment from different levels and don't have elevators? Hand-held walk-behind scrubbers are your option. Do you have the space to store a larger ride-on scrubber?

4 UNDERSTAND THE DIFFERENCES BETWEEN THE THREE MAIN SCRUBBER CATEGORIES

- **Walk Behind:** Least expensive and best for small spaces, easy to store
- **Stand-On:** Higher capacity tanks to walk-behinds, increased cleaning width.
- **Ride-On:** Fastest option, cuts costs for larger jobs, reduces operator fatigue.

5 CHOOSE THE BATTERY TYPE BASED ON THE RUN TIME YOU NEED

- **Lead Acid:** least expensive and lasts long, yet it requires some maintenance.
- **AGM + Gel:** maintenance-free and cost-effective but require more care and attention when charging
- **Lithium:** can be charged like any power tool, often interchangeable to swap out for 24/7 runtime.

6 MORE DOESN'T ALWAYS MEAN BETTER

While innovations continue to improve the ease of use and results, you don't necessarily have to go for the latest, top-of-the-range machine. Focus on what will make your job easier and achieve the best results for your scenario.

7 SELECT A MODEL WITH EASY MAINTENANCE

Regularly maintaining your equipment can significantly improve labour productivity and minimize equipment downtime. Consider a planned maintenance program from Swish to keep your equipment operating at peak performance.

8 TAKE THE GUESSWORK OUT - ASK AN EXPERT

At Swish, we can help you identify the auto scrubber best suited to your facility and configure it to meet your needs. We work with trusted manufacturers like Tenant, Nacecare, Minuteman, Powerboss, android, and Karcher are known for their reliability.

Swish

FEATURED PRODUCTS

NACECARE® HENRY HGB817 FLOOR SCRUBBER

- Removes dirt and grime from hard floor surfaces
- Patented flip-up head makes for easy pad and brush changes
- Can deliver a floor cleaning yield of up to 18,700 sq. ft per hour

SKU #907365

TENNANT® T7AMR ROBOTIC FLOOR SCRUBBER

- Robotic A.I. floor scrubber to provide the ultimate in cleaning efficiency
- BrainOS® technology is able to navigate complex environments avoiding people and obstacles
- Optimal water recovery, even in tight turns, to minimize the risk of slip-and-fall injuries

SKU #T7AMR-650-D

Swish is Canada's source for quality cleaning supplies and equipment.

We help businesses small and large develop cost and health effective cleaning programs. Customers and employees can feel confident in the safety of your facilities. If you are looking for a single-source supplier with best-in-class products and technologies, we can help you develop custom programs that scale with you - no matter how big the job. Our national team and distribution network are ready to support your organization from training to planned maintenance.
